Cartographie des zones inondées
Date : 30 - 31 Janvier 2022

Source: Civil Protection General Directorate, Haiti Twitter Page as at 31 January 2022

HIGHLIGHTS:

- Intermittent rainfall with various intensities over 72 hours, severely impacted communes of the North-West Department following the passage of a cold front over the region.
- Nearly 20 municipalities in the Departments of Nord, Nord'Est and Nippes are partially flooded.
- 2,578 houses are flooded and 3 destroyed, leaving almost 2,500 families in need of temporary shelter (families disaster victims).
- On the nights of January 30-31, 2022, three (3) deaths were confirmed - Two (2) at l'Anse in Foleur and one (1) in Saint-Louis du Nord.

Updates from Impacted CDEMA Participating State

HAITI

The following report was provided by the Civil Protection General Directorate, Haiti as at 03 February 2022:

- Intermittent rainfall with various intensities over 72 hours, severely impacted communes of the North-West Department following the passage of a cold front over the region.
- On the nights of January 30-31, 2022, three (3) deaths were confirmed - Two (2) at l'Anse in Foleur and one (1) in Saint-Louis du Nord.
- In the city of Port-de-Paix, access to several neighborhoods is extremely difficult because of the mud and puddles that have settled.
- On the Anse à Fleur highway passing through Saint-Louis du Nord, access is difficult due to mud and lane erosion.
- The axis connecting Port-de-Paix Jean Rabel is impassable due to the erosion of roads and pockets of water that have accumulated at various points.
- The main rivers of the Department are flooded, including severe flooding in Saint-Louis du Nord (rivière de barres) and Anse à Fleur (Bas de Sainte Anne), while other areas are experiencing moderate flooding.
- All schools and business activities have been suspended as a result.
- The Government of the Republic of Haiti has not issued any specific humanitarian request(s) to date.
